

Trusts and Estates

With our highly tailored approach, our Trusts and Estates lawyers help clients achieve immediate and long-term tax savings. After understanding each client's situation and objectives, we provide bespoke estate planning, estate settlement and trust administration services.

These services include structuring retirement plans, preparing wills and trusts, drafting prenuptial agreements, administering and settling estates, providing trusts and estates fiduciary services, pursuing guardianship, conservatorship and other proceedings in the Probate Courts and including tax-oriented planning for lifetime gifts and the disposition of assets at death.
